

SMART CONTRACT CODE REVIEW AND SECURITY ANALYSIS REPORT

2024 TOKEN
\$2024 TOKEN

01/01/2024

TOKEN OVERVIEW

Fees

- Buy fees: 9%
- Sell fees: 9%

Fees privileges

- Can't change fees

Ownership

- Owned

Minting

- No mint function

Max Tx Amount / Max Wallet Amount

- Can't change max tx amount and / or max wallet amount

Blacklist

- Blacklist function not detected

Other privileges

- Can exclude / include from fees
 - Contract owner has to call enableTrading function to enable trade
-

INTRODUCTION

FreshCoins (Consultant) was contracted by **2024 TOKEN** (Customer) to conduct a Smart Contract Code Review and Security Analysis.

0xD147D587C810413fb324c2cB87fE392316B28389

Network: **Binance Smart Chain (BSC)**

This report presents the findings of the security assessment of Customer's smart contract and its code review conducted on **01/01/2024**

AUDIT OVERVIEW

Security Score

Static Scan

Automatic scanning for common vulnerabilities

ERC Scan

Automatic checks for ERC's conformance

High

Medium

Low

Optimizations

Informational

No.	Issue description	Checking Status
1	Compiler Errors / Warnings	Passed
2	Reentrancy and Cross-function	Passed
3	Front running	Passed
4	Timestamp dependence	Passed
5	Integer Overflow and Underflow	Passed
6	Reverted DoS	Passed
7	DoS with block gas limit	Low
8	Methods execution permissions	Passed
9	Exchange rate impact	Passed
10	Malicious Event	Passed
11	Scoping and Declarations	Passed
12	Uninitialized storage pointers	Passed
13	Design Logic	Passed
14	Safe Zeppelin module	Passed

OWNER PRIVILEGES

- Contract owner can't mint tokens after initial contract deploy
- Contract owner can't exclude an address from transactions
- Contract owner can exclude/include wallet from tax

```
function excludeFromFee(address account, bool isExcluded) public onlyOwner {  
    require(isExcludedFromFee[account] != isExcluded, "The wallet is already has that value.");  
    isExcludedFromFee[account] = isExcluded;  
    emit excludeStatus(account,isExcluded);  
}
```

- Contract owner can whitelist wallet address

```
function setWhitelistBuySell(address _user, bool _wl) external onlyOwner {  
    require(whitelistBuySell[_user] != _wl, "The wallet is already has that value.");  
    whitelistBuySell[_user] = _wl;  
    emit whitelistStatus(_user,_wl);  
}
```

- Contract owner has to call **enableTrading** function to enable trade

Please note that any wallet whitelisted or owner wallet retains the ability to engage in trading, even in situations where trading has been disabled

```
function enableTrading() external onlyOwner {  
    tradingActive = true;  
}  
  
_transferFrom function line 1076  
.  
.  
.  
require(isNotLockBuySell(from), "2024 TOKEN: Lock");  
.  
.  
.
```

- Contract owner can renounce ownership

```
function renounceOwnership() public virtual onlyOwner {  
    _transferOwnership(address(0));  
}
```

● Contract owner can transfer ownership

```
function transferOwnership(address newOwner) public virtual onlyOwner {
    require(
        newOwner != address(0),
        "Ownable: new owner is the zero address"
    );
    _transferOwnership(newOwner);
}

function _transferOwnership(address newOwner) internal virtual {
    address oldOwner = _owner;
    _owner = newOwner;
    emit OwnershipTransferred(oldOwner, newOwner);
}
```

Recommendation:

The team should carefully manage the private keys of the owner's account. We strongly recommend a powerful security mechanism that will prevent a single user from accessing the contract admin functions. The risk can be prevented by temporarily locking the contract or renouncing ownership.

CONCLUSION AND ANALYSIS

Smart Contracts within the scope were manually reviewed and analyzed with static tools.

Audit report overview contains all found security vulnerabilities and other issues in the reviewed code.

Found 1 HIGH issues during the first review.

TOKEN DETAILS

Details

Buy fees:	9%
Sell fees:	9%
Max TX:	N/A
Max Sell:	N/A

Honeypot Risk

Ownership:	Owned
Blacklist:	Not detected
Modify Max TX:	Not detected
Modify Max Sell:	Not detected
Disable Trading:	Not detected

Rug Pull Risk

Liquidity:	N/A
Holders:	Clean

2024 TOKEN ANALYTICS & TOP 10 TOKEN HOLDERS

The top 10 holders collectively own 100.00% (2,024.00 Tokens) of 2024 TOKEN

Token Total Supply: 2,024.00 Token | Total Token Holders: 2

2024 TOKEN Top 10 Token Holders

(A total of 2,024.00 tokens held by the top 10 accounts from the total supply of 2,024.00 token)

Rank	Address	Quantity (Token)	Percentage
1	Null: 0x000...dEaD 🔗	1,192.722353	58.9290%
2	0xABdC64...50ef2b4e 🔗	831.277647	41.0710%

TECHNICAL DISCLAIMER

Smart contracts are deployed and executed on the blockchain platform. The platform, its programming language, and other software related to the smart contract can have its vulnerabilities that can lead to hacks. The audit can't guarantee the explicit security of the audited project / smart contract.
